

2024.36.1

Remarks on board Sch. Caleb Eaton

1877

Saturday Nov 1st

We are all ready for sea, at 7.30. Am
Pilot-Come on board we then hove up anchor
Made all sail and left the City of
New Bedford bound on a whaling voyage
to the North and South Atlantic Ocean
in pursuit of Spirm and Right whales, the
Tug Boat Charley accompanied us a few
miles on the way and at 3.30. Pm the Pilot
along with the rest of the Company left us and
went back in the Steamer Charley and
we stood along to the Southward and Eastward

So ends our first day out
from Home " "

Saturday Nov. 8th

Experienced very heavy gale of wind with
heavy rain squalls from the N.W.E we
were in the S.W. Edge of the stormy regions
of the Gulf Stream

Saturday Dec. 6th

this day light breeze and fine weather
at daylight saw Spirm whales, at 7.30
Am lowered all three Boats. W.B. struck
and got one S.B. struck two but got Nix
the Harpoon drewed from one and the line
parted from the other at soon took the
whale along side then got dinner and then
Commenced cutting in and finished at
dark

So ends this day of Our
Lord " "

Cruising around the Galapagos Isles

Thursday May 25

all this day strong breeze from the Southward and Eastward. Standing to the Eastward. at 10:20 A.M. raised large white water 2 point off our lee Bow and 7 miles off. we run towards it and it proved to be Sperm Whales. at 1 P.M. lowered all three Boats the S.B. went on to a whale and S. King the Boatsteerer missed him good chance S.B. went on next and Manuel the Boatsteerer missed (Boat on top of the whales) back. S.B. went on again but the Capt went in the head of the boat and struck the whale himself and got him. about two hours later S.B. went on again. King got one Iron in slightly and it came out (another good chance gone). W.B. went right on struck and got one. took the first whale alongside about 4 O'clock P.M. last one at sundown. got supper and set the watch for the night. watch on deck getting ready to cut. So ends this day

Friday May 26

Commences with light breeze from the S.E. vessel lying aboe. at 5 A.M. called hal hands and commenced cutting in the whales and got them in by 11:40 A.M. in the afternoon busy cutting blubber and clearing away the Heads. at 7 P.M. started try works Middle and latter part of this day wind S.S.E. So ends

the Isle of Plata " at noon passed the Isle
and stood to within three miles of the Coast
and then steered North " at 8 P.M. being
very dark hauled off shore to the Westward
under light-sails

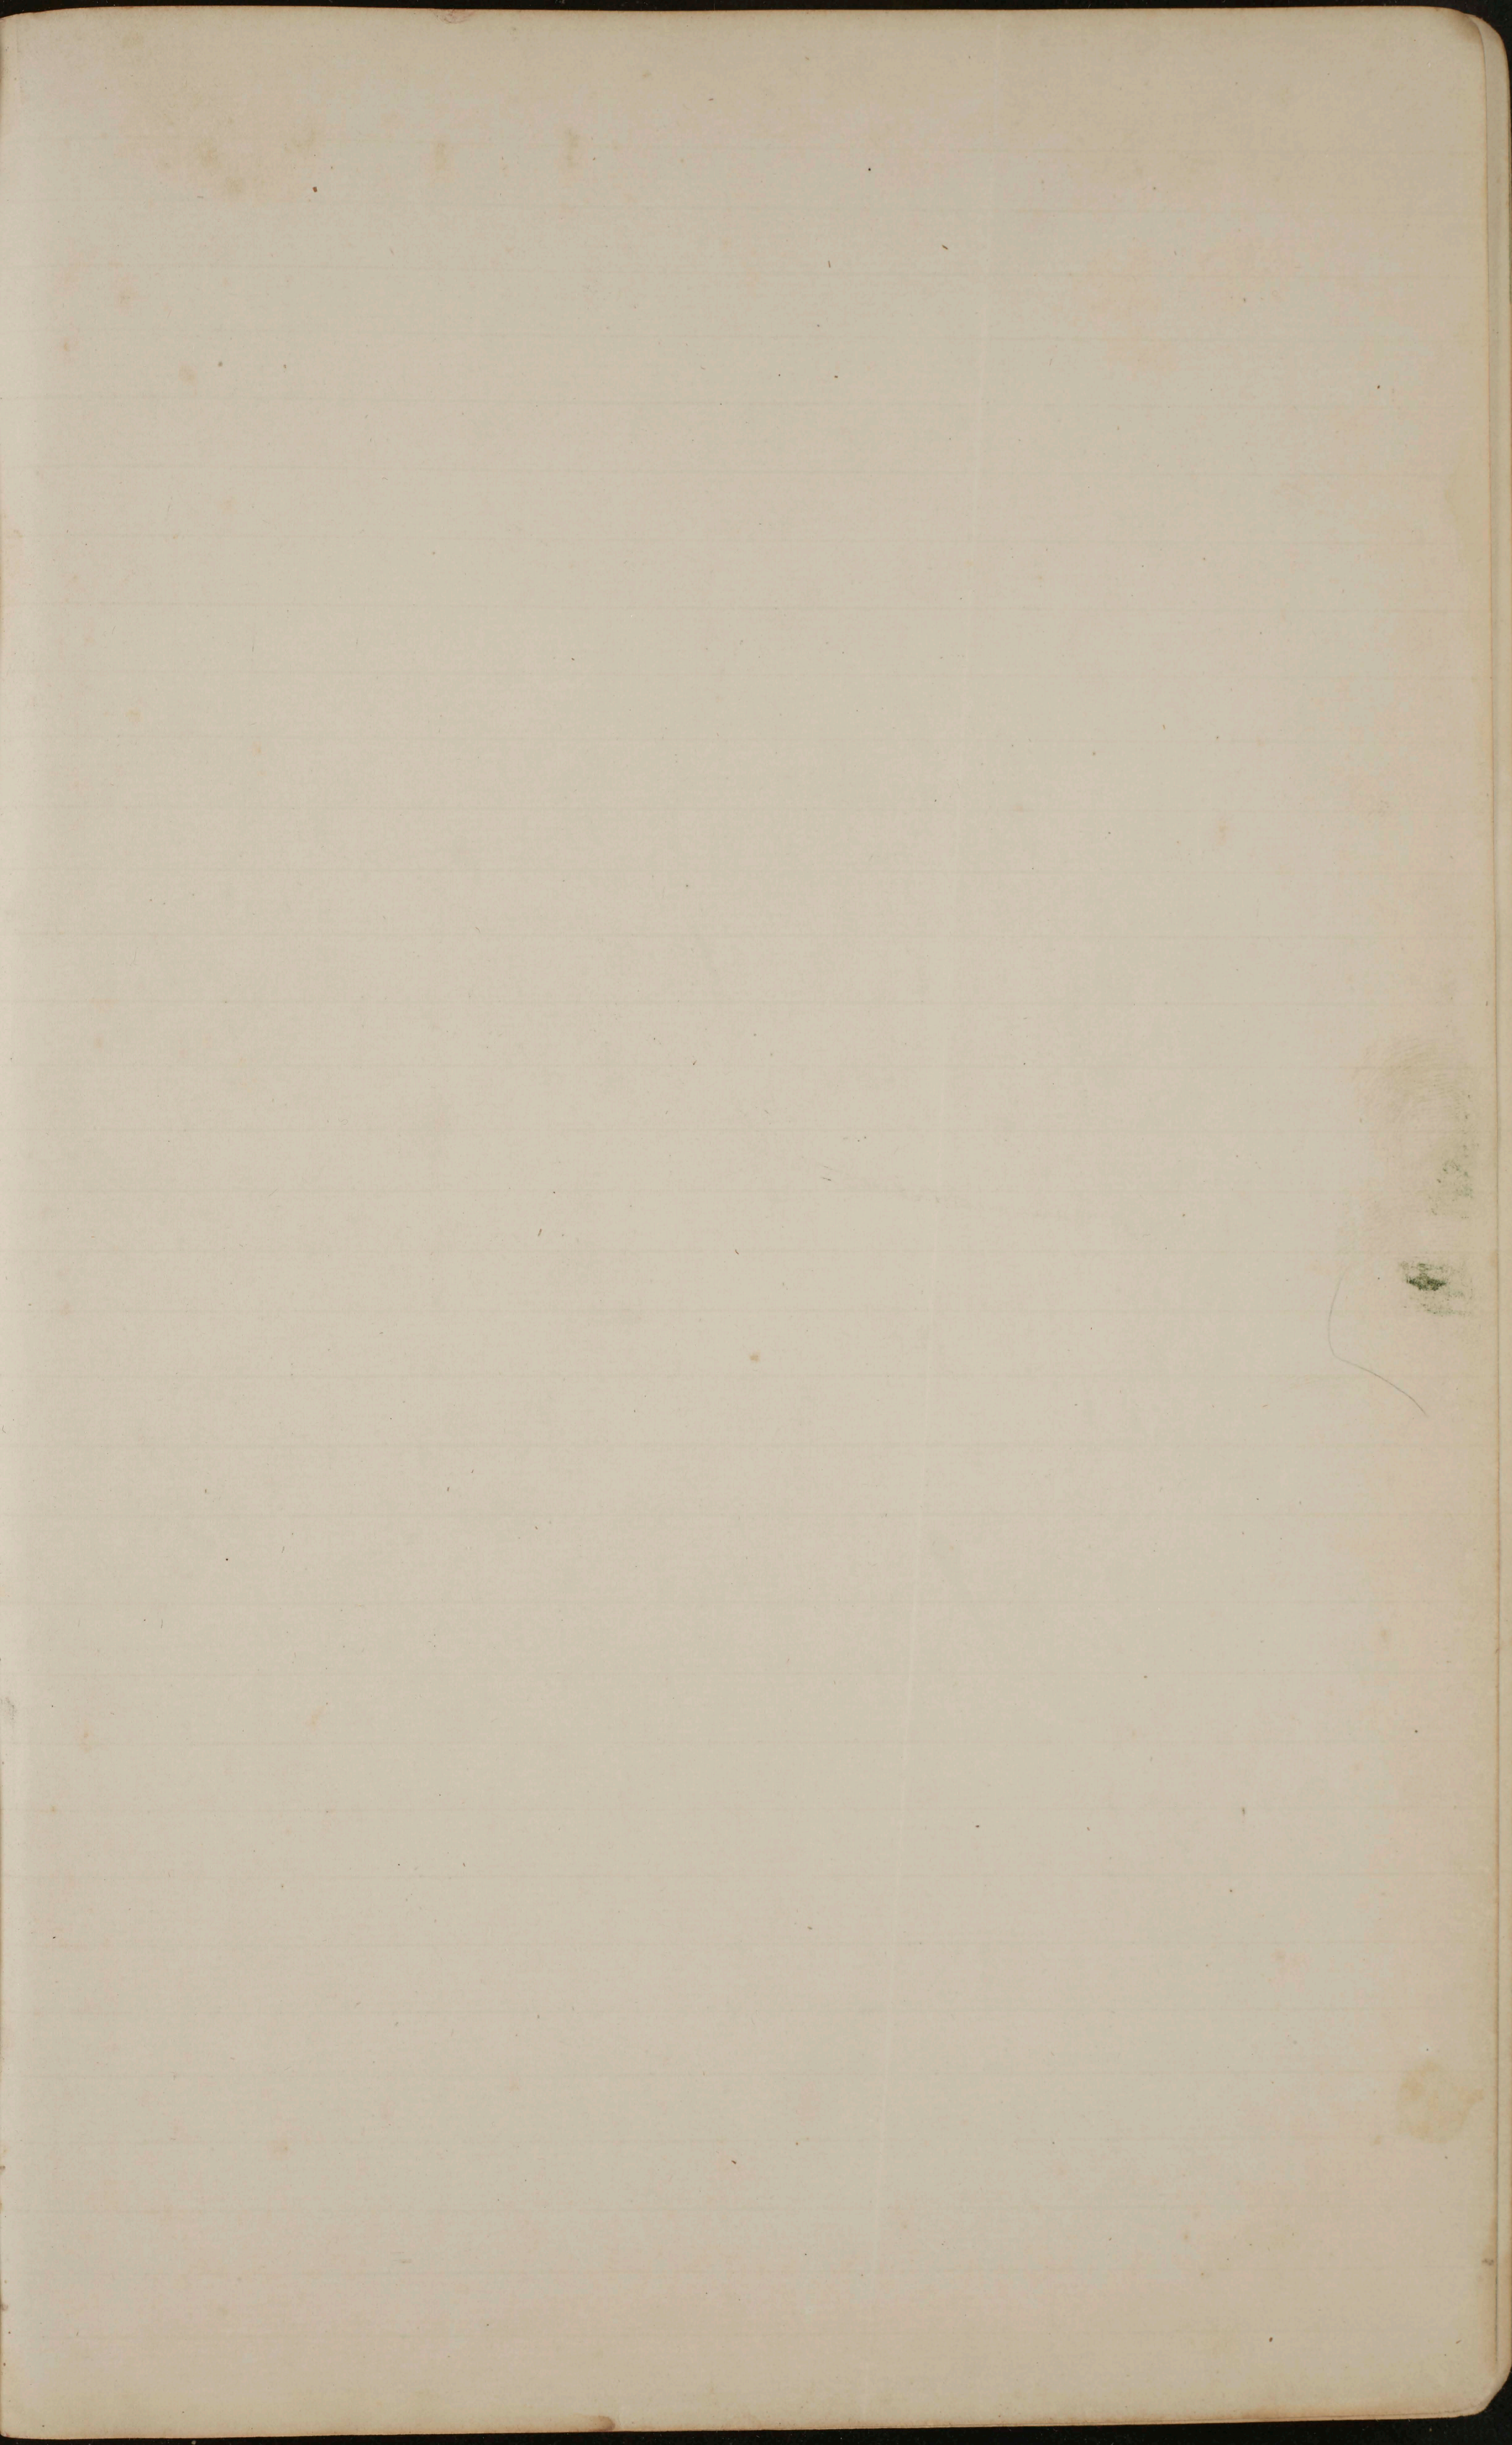

The Key Hole in the Door
by - H. W. Phillips

Respectfully dedicated to Mr Geo. Dean Esq

I left the parlor early
I think 'twas scarcely nine
When by a happy fortune
Her room was close to mine
Resolved like old Columbus
New Regions I explore
I took a snug position
By the Key Hole in the Door
~~~~~
